1 Introduction

The new Tax Administration System will bring many advantages to the GTA in handling Taxpayer's data and related services such as registration, deposits, collection, refunds, audit, risk, objection, appeal, Taxpayers' services, etc.

The new Taxpayer Registration process is a common process of registration applied to all categories of Taxpayers for Income Tax, Withholding Tax and Excise (importers, producers and warehouse keepers), etc. The purpose of this document is to guide how a taxable person can register in the new Tax Administration System.

Only NAS registered users are eligible to submit registration application in the new Tax Administration System. For a first-time tax applicant, the tile for new registration would be visible on the dashboard of the tax applicant. If the Taxpayer is already registered, the Taxpayer can add another new registration from the dashboard. The Taxpayer will receive a Tax Identification Number as well as a Tax Card on completion of the registration process on the portal.

Receiving a TIN from the new registration application is a pre-requisite for all other types of registrations (such as Taxpayer Representative, Excise Warehouse License).

All mandatory registration information (forms data) must be completed in full before the application is submitted to GTA for review. Only upon validation of the form data entered by the applicant, the Taxpayer will be able to continue with the application. If any validation fails, the system will show warnings about the validation failure.

The application form is dynamic for each type of Tax applicant information. Based on the option chosen by the tax applicant, the relevant fields of the application form will appear.
